Science Olympiad Achievements

Windham High School's Alpha and Beta Teams competed on Saturday at the Maine State Science Olympiad Competition at USM in Gorham. Students had prepared for events since October, building, studying, and practicing labs after school, during study halls and on weekends. As a result, we have a HUGE list of achievements to celebrate! This was the biggest year we have ever had for students medalling in their events!

These are the students earning medals:

Terrance Shoemaker – Gold in Cell Biology, Silver in Experimental Design, Bronze in Chemistry Lab

Joseph Paluso – Gold in Cell Biology, Bronze in Chemistry Lab, Bronze in Protein Modeling

Daniel Hanson – Silver in Experimental Design, Bronze in Anatomy & Physiology, Bronze in Scrambler

Holly Spencer – Silver in It's About Time, Bronze in Experimental Design

Katie Herzig – Silver in Fossils, Bronze in Experimental Design

Melissa Agneta - Silver in Experimental Design

Madison Mauro – Silver in Green Generation

David Sepulveda - Silver in Air Trajectory

Josh Tanguay - Silver in Air Trajectory

Jeremy Bennett – Silver in Fossils

Vitaliy Popov – Silver in Green Generation

Sammie Ober – Silver in It's About Time

Sean Manning – Bronze in Entomology, Bronze in Scrambler

Sarah Packard – Bronze in Entomology, Bronze in Protein Modeling

Seth Martin – Bronze in Air Trajectory

Isaac Sibley – Bronze in Air Trajectory

Ian Donnelly – Bronze in Anatomy & Physiology

Meredith Getchell – Bronze in Forensics

John Giberti – Bronze in Forensics

Dexter Herald – Bronze in Protein Modeling

Hawar Haddadi – Bronze in Wright Stuff

Allison Labonte – Bronze in Wright Stuff

Dom Cancelarich – Bronze in Astronomy

Dominic Agneta – Bronze in Astronomy

Erin Merchant – Bronze in Experimental Design

We had 25 students win medals in their events! We medalled in 14 out of the 23 events.

Overall, our two teams came in 4th and 5th in the state out of 15 teams who competed.

Medal summary for 2015:

Gold x 1 – Cell Biology

Silver x 5 – Air Trajectory, Experimental Design, Fossils, Green Generation, It's About Time

Bronze x 10 – Air Trajectory, Anatomy & Physiology, Astronomy, Chemistry Lab, Entomology, Experimental Design, Forensics, Protein Modeling, Scrambler, Wright Stuff

These are the students on our teams:

Dominic Agneta, Melissa Agneta, Denali Bailey, Jeremy Bennett, Com Cancelarich, Gabe Curtisbrown, Ian Donnelly, Meredith Getchell, John Giberti, Jacqueline Gleason-Boure, Roman Habibzai, Hawar Haddadi, Daniel Hanson, Dexter Herald, Allison Labonte, Sean Manning, Seth Martin, Madison Mauro, Erin Merchant, Sammie Ober, Sarah Packard, Joseph Paluso, Vitaliy Popov, David Sepulveda, Terrance Shoemaker (President), Isaac Sibley, Holly Spencer, Josh Tanguay

Coaches: Dan Wirtz and Lisa McLellan
